# Discover TWO ONE-OF-A KINDS

Introducing Celebrity Edge® Series

Celebrity **X** Cruises®  
SAIL BEYOND®

A large, bright orange cabin with a curved glass front is suspended over the deep blue ocean. Inside the cabin, several people are sitting on a striped sofa, looking out at the sea. The sky is a clear, light blue. The overall scene is one of luxury and modern design.

*Celebrity* EDGE WAS JUST THE BEGINNING,  
NOW WE'RE TAKING REVOLUTIONARY  
TO NEW HEIGHTS

Celebrity Edge<sup>®</sup> was designed to create a closer connection between you, the sea, and the world beyond—blurring the lines between inside and out. The result was so extraordinary, Celebrity Edge was recognized as one of the world's greatest places by *Time* magazine. That same industry-changing experience can be found on all of our Edge<sup>®</sup> Series ships—the newest Celebrity Apex<sup>SM</sup> and on our next incredible feat, Celebrity Beyond<sup>SM</sup>. Every element on these ships has been taken to the edge of possibilities. Higher ceilings. Airier venues. Flowing architecture so every deck, every experience, is seamlessly connected. From the mind-blowing Eden to the sea's only Magic Carpet<sup>®</sup>, each Edge Series ship leaves traditional thinking in its wake.

*Our* OBSESSION  
WITH DESIGN IS  
STUNNINGLY OBVIOUS

At Celebrity, we believe in the power of creative collaboration. That's why, for our Edge® Series ships, we brought together a world-class team of architects, interior designers, stylists, and landscape artists to create some of the most inspiring places at sea. Spaces were turned into experiences. One venue connected to the next with a seamless flow so that the entire ship becomes a work of art. In fact, every detail has been studied, curated, and created to deliver high design on the high seas.

The Grand Plaza

## THE EDGE SERIES DESIGN DREAM TEAM

The team of A-list designers, architects, and artists came together to create an experience at sea like no other. Their combined efforts across our ships resulted in a modern luxury experience.

**KELLY HOPPEN, MBE**  
INTERIOR DESIGNER

With 40 years in the design industry, Kelly is one of the most sought-after interior designers in the world. Her globally renowned style is a subtle coordinated fusion of East meets West; clean lines and neutral tones, blended with charming warmth and sumptuous opulence. Kelly brought her design aesthetic to The Retreat® and suites on Edge® Series ships—in addition to select spaces and suites of The Retreat fleetwide.

**TOM WRIGHT OF WKK**  
OUTDOOR PUBLIC SPACES

World-renowned for his striking creations like the Burj Al Arab Hotel in Dubai, Tom Wright was the clear choice to lead the charge on designing open decks and the distinct exterior profile. Tom states, "In the port or at sea, Celebrity Apex<sup>SM</sup> stands out with its forward-thinking, transformational modern design."

**PATRICIA URQUIOLA**  
ARCHITECT/DESIGNER

Patricia studied architecture at the world-renowned Madrid Polytechnic and Milan Polytechnic. Her talents have earned her a long list of international honors and awards, and many of her designs are displayed in some of the most prestigious museums in the world. She created the stunning interiors of Eden and of one of our main dining venues, Cyprus Restaurant.

**SCOTT BUTLER, AIA**  
ARCHITECTURAL DESIGN FOR EDEN

Scott and Wilson Butler Architects have been a design partner with Celebrity Cruises® since the outset of the Millennium® Series ships. Scott and his firm were also Master Planners in the Solstice® Series ships, designing iconic spaces, including the Grand Foyer, the Panoramic Lifts, the Shopping Arcade, and more. Scott's success is the result of his collaborative style and the collaborative tools that he's developed.

**JOUIN MANKU**  
LEAD DESIGN TEAM  
FOR THE GRAND PLAZA

Duality, singular, multicultural, ambitious, neither architects nor designers: Patrick Jouin and Sanjit Manku have invented a trade at the crossroads where industrial production meets the long tradition of craftsmanship. In combining their experiences and concordant conceptual/experimental approaches, they recognized the opportunity for a dynamic collaboration that would break down the boundaries between object, interior, and structure.
